

# Are the rich becoming richer while the poor are becoming poorer? 1st grade

This subject, I agree the rich are becoming richer and the poor are becoming poorer, seems to have been remarkable in the modern society. There are three reasons why I support this opinion. (Japan has been thought as a safe country compared to other developed countries. One of the reasons is that the income gap between the people was not big. The most citizens believed themselves as an economically average. Currently, however, the gap has been wider and wider.) 🗑️ 削除 43 words

Firstly, IT leads to income inequality. once around post World War 2, only a few percentages of Japanese people are regarded as rich and the majority is placed in the middle class. Now, because of the development of computer system, working styles have been changed and → thanks to advanced computer systems, we realize a significant positive impact on profitability. As a result, the number of people called millionaires have increased. → An increasing number of millionaires have appeared. On the other hand, a number of people have lost their jobs due to the appearance of artificial intelligence. These people have difficulties in their daily lives, for example, they cannot buy enough food to live and sometimes that circumstance leads to the death of hunger.

Secondly, governments do not deal with rescuing people who face poverty. although the Japanese government utilizes the system which provides subsidies to the poor, this system sometimes does not work well. 🗑️ 節を逆に

Additionally, money flows to the people who have authority and money. Politicians and rich families have a power to control the society. One of example is a bribe. In this circumstance, more money goes to the rich and less money goes to the poor. 🗑️ corruption を例に挙げると良いです。  
例 : Politicians and wealthy families have the power to control society. An example of this is corruption with people accepting bribes in exchange for more money or influence.

In conclusion, the wealth gap has been growing more because of the development of IT, lack of government efforts and ----- . (268 words)
