Agree or Disagree: Democracy is the best form of government.

There are advantages and disadvantages to democracy but I think democracy has a tremendous benefits that outweigh its disadvantages. I agree democracy is the best form of government for the following three reasons.

① First, individuals have the rights to express their own thoughts and opinions. It is common that citizens criticize their government and they are not punished from their acrimonious remarks. On the contrary, citizens can rectify the situation if the government proceeds with a wrong policy. As a result, people in democratic nations have the power to change its government policy.

② Second, elections by citizens play a significant role to sustain a higher level of lives. Politicians selected by citizens will contribute to further benefits for citizens.

For example, a representative developed a local infrastructure as the politician have declared the election promises at the campaign a few decades ago, and this commitment revitalized the local community. Therefore, elections by citizens in a democratic nation leads to a beneficial society.

③ Finally, a competitive economy in democracy can promote the society to higher levels. The appearance of many entrepreneurs in democratic country will lead the world economy.

👉 Why? How? Without any restriction 📝書いてみましょう!

As enterprises in democratic nations have less restriction to expand their businesses than state-owned ones, therefore, various business opportunities make a meaningful contribution to thriving profits in not only domestic markets but also overseas.

economy. For example, Toyota, an auto giant, has been **making strenuous**(:arduous, vigorous) **efforts** to produce higher quality vehicles at lower costs than its competitors. This **leads** consumers to be satisfied and companies to **increase profits**. Consequently, competitiveness can **play a significant role in** the improvement of the country's financial situation.

- 競争的な経済：市場経済や自由市場経済の概念を指す。競争的な経済は、企業や個人が自由に市場で競争し、効率的な生産やサービス提供を追求する経済体制を指す。競争によって、企業は効率を向上させ、質の高い製品やサービスを提供する必要がある。
- 社会を高いレベルへ持ち上げる：市民に経済的な機会が提供され、効率的な経済が育まれ、社会の生活水準や質が向上する。…と理解しましたが、合っていますか？
《このパラグラフ、非常に良いこと書いていますが、トピックセンテンスで漠然とした higher level という表現を使っているためか、難しい展開になりましたね。追加ライティングを拝見した後、一貫性を保つためにトピックセンテンスを再考しました》

State-owned enterprises => in communist nations, state-owned enterprises are usually not challenged by competitors. This allows a single company, or a select group of companies, to control the market.

(If a **communist governance** has a strong influence on its economy, **an** uncompetitive economy would decline.) 🙅 had better remove this sentence as it is not related to the topic sentence.

In conclusion, I believe democracy is the best form **for** government for the life satisfaction of the people.

Q) What are some potential challenges or drawbacks of democracy that should be considered when advocating for it as the best form of government?

A) Individuals are required for responsibilities in any situations. For example, **in businesses**, they could earn an enormous amount of money **from** their innovative ideas. On the other hand, when they fail to their business, they may **have** huge amount of debt.

👉 Good. Your response can address the question about drawbacks of democracy, but it doesn't directly relate to democracy as a form of government. It talks about individual responsibilities and the risks associated with business.

★クラスでの QA トレーニングまでに考えておきましょう。

Sample A :

One significant challenge of democracy is the possibility of **gridlock** in decision-making. In a democratic system, decisions often require broad consensus and may involve lengthy debates and negotiations. While this is intended to ensure that policies are well-considered and inclusive, it can sometimes lead to delays in **addressing pressing** issues. For example, in a multi-party democracy, various parties with differing views may struggle to reach a consensus on important legislation, causing delays in passing laws that are urgently needed.
